OVERVIEW

Precision Sleeve Sealing At Speed

Built on a rugged industrial frame with easy-adjust controls, this system integrates seamlessly with upstream labellers and downstream shrink tunnels or conveyors — with an intuitive control panel for quick adjustment of speed and sealing parameters to suit different container shapes and sleeve sizes.

- Automatic sleeve sealing — precision film application with minimal manual input
- Integrated kissing conveyor — synchronised product feed for consistency
- Adjustable speed & alignment to handle varied product sizes & shapes
- Durable industrial steel construction built for long-term use
- User-friendly control panel for fast, intuitive setup & changeovers
- Compatible with upstream and downstream equipment such as labellers & shrink tunnels
