PNEUMATIC L-BAR SEALER

Pneumatic L-Sealer — 750 × 550

A robust, semi-automatic shrink wrap sealing solution designed to streamline packaging operations where high-quality seals and consistent performance are required — combining pneumatic actuation with a traditional L-bar sealing format to reduce operator effort and deliver strong, precise seals.

Pneumatic L-Sealer — 750 × 550

- **Semi-automatic, pneumatic sealing**
- **Up to 700 packs/hr output (operator dependent)**
- **750 × 550mm seal bar size**
- **Backed by 35+ years of SWS expertise**

OVERVIEW

Bridging Manual & Automatic Sealing

Ideal for small-to-medium production environments — including print shops, food, pharmaceuticals, electronics and consumer goods packaging lines — this pneumatic L-bar sealer bridges the gap between manual sealers and fully automatic packaging systems. Optional integration with downstream conveyors or existing shrink tunnels makes it easy to build a modular packaging system.

- Pneumatic actuation provides consistent pressure & reduces operator effort vs. fully manual sealers
- Teflon-coated sealing wires & glass-fibre slots ensure clean, flat, unburnt seals across a wide range of films
- Robust industrial construction stands up to frequent use in busy packaging areas
- Quick film adjustment & changeover make it efficient for varied product runs
- Mis-cutting & overheating protection safeguards both operator and film quality
- Stable performance over long shifts with simplified maintenance routines
