L-SEALER & SHRINK TUNNEL COMBI

Semi-Automatic L-Sealer & Tunnel Combi

A durable, cost-effective packaging solution that pairs a manual L-bar sealer with a heat shrink tunnel — engineered for businesses that need high-quality shrink-wrapped packaging without full automation.

Semi-Automatic L-Sealer & Tunnel Combi

- **Semi-automatic L-bar sealing**
- **Up to 650 packs/hr output (operator dependent)**
- **440 × 560mm seal bar size**
- **Backed by 35+ years of SWS expertise**

OVERVIEW

Built For Consistent, Efficient Shrink Wrapping

Engineered for businesses that need high-quality shrink-wrapped packaging without full automation, this system delivers straight, sealed edges and tightly shrunk film. It's ideal for small- to medium-volume operations across manufacturing, printing, electronics, food, pharmaceuticals and building materials — with simple manual sealing and reliable heat shrink performance.

- Teflon-coated sealing wires in glass-fibre slots for smooth, unburnt seams
- Overheat & mis-cutting protection safeguards operator and product
- Tailored perforators evacuate air from film bags before sealing
- Cylinder-assisted cut and seal reduces operator strain
- Stainless heating tubes & silicone-wrapped rollers for uniform, reliable shrinking
