OVERVIEW

Built For Strength & Consistency

Built for strength and consistency, this machine uses manual product feeding with automatic sealing and cutting, making it a reliable solution for medium-volume production environments where flexibility and cost control are important. Compatible with a 600 × 400mm shrink tunnel, it integrates easily with existing shrink tunnels and conveyors.

- Manual product loading with automatic sealing and cutting
- Designed for PE shrink film sleeve wrapping
- Produces strong, straight seals suitable for heavier or grouped products
- Stable sealing pressure for uniform results across varying product sizes
- Robust steel frame designed for continuous operation
- Simple mechanical design keeps maintenance low
