STANDALONE PE SHRINK TUNNEL

Shrink Tunnel — 600 × 400

A high-performance standalone heat tunnel designed specifically for shrinking PE shrink film around cartons, trays and bundled products — built for industrial packaging environments with consistent heat distribution, reliable airflow and uniform shrink results.

Shrink Tunnel — 600 × 400

Standalone, heat tunnel unit

20kW power consumption

600 × 400mm tunnel chamber size

Backed by 35+ years of SWS expertise

OVERVIEW

Built For Heavier, PE-Wrapped Packs

Supplied as a standalone unit, this PE shrink tunnel is ideal for customers who already operate a sleeve wrapper or sealing machine and need a dependable tunnel to complete the packaging process. Suitable for most packing demands including electronics, hardware, plastic, food, printing, pharmaceuticals and construction materials — commonly used for beverages (beer, water, cans, glass bottles) with a tray or carton.

- Optimised specifically for PE shrink film applications
- Delivers strong, even shrinking for heavier or grouped products
- High-efficiency heating elements with forced hot-air circulation for wrinkle-free results
- Heat-resistant conveyor rollers ensure stable product transport
- Variable conveyor speed matches upstream sealing equipment
- Simple controls for fast setup and easy operation

SPECIFICATION

Machine & Dimensions

1690 mm	980 mm	2404 mm	550 kg	20 kW
HEIGHT	WIDTH	LENGTH	WEIGHT	POWER

Tunnel Chamber Size	1500mm × 600mm × 400mm
Max Packing Size	1300mm (L) × 400mm (W) × 300mm max height
Temperature Range	0–400°C
Workable Table Height	850mm ± 50mm
Capacity	15–20 pcs/min
Conveyor Speed	0–15 m/min
Applicable Films	Polythene

REQUIRED POWER
3-phase • 220V/380V • 20kW • 50/60Hz

WARRANTY & SUPPORT

Support You Can Rely On

Warranty & Installation

- 12-month parts-only warranty as standard
- Installation, commissioning and operator training available on all stock machines
- Service contracts available for ongoing maintenance and support

Additional Features

- Built to handle heavier packs commonly used in PE applications
- Adjustable airflow & temperature for different product types
- Easily integrates with sleeve wrappers and manual, pneumatic or semi-automatic sealers

FILM, SPARES & CONSUMABLES

Also Available	Larger and longer tunnels available
Shrink Film	Polythene rolls
Spare Parts	Heater elements, conveyor belts & more
Consumables	Everything to keep your machine running
